[From the New York Times.] A Clear View of the Maryland Trouble.

"The Commissioners are confident that their action will be sanctioned by the Court. Gen. Canby has had an interview with them and with Mayor Chapman, and said that if the police should be unable to preserve order he should not hesitate to declare the city un-

der martial law." The above paragraph suggests one of the crude ideas floating round the country, which furnish evidence (of what I have affirmed since the commencement of the rebellion.) that we are in a state of revolution. What right has Gen. Canby to declare martial law because order is not preserved in Baltimore? It is no matter whether he made the above remark or not. This idea is affoat in the country, and in the minds of men who are supposed to have sense and intelligence. When the Missouri delegation of Blairites waited on the President and asked for military interference in Missouri, we are informed the President made no direct answer, but took the matter under advisement. Now, I should be glad to know, and will be thankful for the information, how the President gets any power, under the Constitution and laws, to interfere in State elections when civil case, not a military one. Is the Governor going to call out the militia before the Courts have exhausted their power? There is no way of creating violence in Baltimore except the Governor does it himself; and till there is violence, the President and the military have no right to interfere. That is a plain case, but before I examine it, let us refer to the Louisiana case. The President is

because he held Louisiana under military control. The excuse for that is that Louisiand was one of the States in rebellion, and Congress had not restored it to its original normal condition. To my mind, the President's military action in Louisiana is conclusive against his whole theory of reconstruction. If Louisiana is a State, he has no right of military interference. But that question is not now important; for the public will settle it. The case of Maryland and Missouri is important, for we may be hurried into bloodshed before we know it. Now observe two facts: 1 Maryland and Missouri never did secede, and were never Confederate States. 2. The President has proclaimed the war ended and peace restored. Therefore, Maryland and Missouri are no moresub jects of martial law than are Ohio and Indiana. I should like to know what would be said to a President of the United States who should declare Cincinnati and Indianapolis under martial law, because a Board of Po- ginia. lice Comn issionsrs acted illegally ? I don't think he will do it in a hurry unless he courts the fate of Chas. Stuart ; and I don't think

he will try it in Missouri, unless he 1s prepared to see his officers run faster than our men did at Bull Run. I assume that we are now at peace. If we are, then we must be governed by the Constitution and laws .-What power does the Constitution and laws give the President to interfere by military orce with State laws? The Constitution has three paragraphs only relating to this 1. The President is made Commander-in-Chief of the Army and Navy of the United States. In war this is an almost illimitable

lower, because the objects of war may make t necessary to declare martial law in any place whatever. But I assume that we are It is very obvious that Mr. Williams was at peace, and in peace no such power exists. simply "spoiling the Egyptians." 2. Congress has power to declare war, and to call out the militia to "execute the laws of the Union, suppress insurrections, and repel invasions," Under this power they have a the army and the militia may be employed for this purpose. Accordingly, laws have been enacted directing the mode in which the military force shall be employed to surpress insurrection or repel invasion.

3. Section 4, Article 4. The United States Legislature, or of the Executive," (when the recurrence of such acts of villany. Legislature cannot be convened,) against domestic violence."

Now, observe that this case does not occur gether. Mark,-for it is all important,-the bers. power of the Governor to call for this assisnotorious that the Legislature of Maryland for assistance, nor the President to give it, to mourn over the degeneracy and evil of the till the Legislature of Maryland is convened. | times. own hands, and they should keep it and use | crime determined upon.

the question they act on the rebel side. Every intelligent man understands this, and t seems to me it is little less than madness for mere executive officers to defy the public opinion of the country. The yerdiet of the people is that rebels shall not exercise power, and is there any man so stupid as not to see it? The war commenced in the streets of Baltimore, and t may end there. It will be wise in the President to adhere to the very letter of the Constitution and the laws. It will be still wise, in the Governor of Maryland not to provoke the wrath of the loyal people. I affirm again, there is no constitutional power in the Pres-

elections, till the Legislature of Maryland calls for such interference. You observe that I have not touched at all pon the legality or illegality of the proceedgs in the case of the Police Commissioners. That is a civil question, to be determined by civil law. If the Governor decides to turn them out, and they won't go, he has the writ of quo warranto and the modes of legal pro-cedure. Why should he go to the Presidents for help? And what has the President got to do with a civil question about officers in Maryland? And what has Gen. Canby got to do with martial law in Baltimore till the President is legally called upon for assistance? The men now in executive power hold it by a frail tenure, and they should remember the fate of Phaeton, when he attempted to drive the Chariot of the Sun.

A Singular Case of Pocket-Picking A Virginia Clergyman Arrested on a Charge of Picking a Lady's Pocket-He Surrenders his Plunder and is Locked up.

One of the most remarkable cases of pock t-picking that has ever come to the knowledge of the Police authorities occurred yesterday afternoon, in a Broadway stage. It ppers that about 3'oclock Mrs. Bloomfield H. Moore, of No. 1,718 Walnut street, Philadelphia, entered a Fifth avenue stage at Fourteenth street, on her way down town.— Soon after a clerical-looking gentleman en-tered the stage and seated himself close beside Mrs. Moore, although there was a abundant room on the other side of the vehicle .-This was not noticed at the time, however, as the stranger was of so 'respectable an appearance.

As the stage proceeded down Broadway, Mrs. Moore noticed a lady sitting opposite her making sundry gestures, as though she wished to attract her attention. Although Mrs. Moore thought this conduct very singular, she paid no attention to it, however, and it was not until the clerical passenger had hastily left the stage that she became aware of the motive of the other lady, for the latthere is no insurrection or violence? And if there be, how he is to interfere except in the there is no insurfection of the thether the there he, how he is to interfere except in the manner prescribed by law? Whether the Governor of Maryland has or has not the power to try the Police Commissioners of Baltimore is no business of the United States Government. Suppose the Governor of States and turns out the Police Therefore the state and turns out the Police Therefore the state and strength of having stole her pocket-book, containing \$28, when the man produced the property thanks to the council in polynome. It is a Quite a crowd had by this time collected in the vicinity, which attracted the attention of Roundsman Delemater, who, on reaching the scene, arrested the pickpocket and escorted him to Police Headquarters. On reaching the Inspector's office, Mr. Carpenter was informed of the circumstances attending the

case by both Mrs. Moore and the officer. The prisoner stated that he was Rev. G. T. held responsible for the Louisiana massacre, Church at Suffolk, Sussex Co., Va., about 20 miles from Petersburg, near the Nottaway River. He claimed that he had found the pocket-book claimed by Mrs. Moore on the seat between the lady and himself, and that he only took possession of the wallet for the purpose of advertising for an owner. This ngenious statement caused a broad smile upon the face of the veteran Inspector, who quietly informed the prisoner that he did not believe a word of it. On the person of Wiliiams was found about \$60 in greenbacks and a letter, of which the following is a copy

RICHMOND, Oct. 30, 1866. The Rev. Geo. T. Williams is Rector of the Church at Suffolk, with this he has combined a school for support.

Mr. Williams is a faithful and useful minister. He is also faithful, and I believe remarkably successful, as a teacher. His school is a thorough Church school, I believe, from the testimony of all that have seen it. I do earnestly recommend him and his GEO. WOOLBRIDGE, Rector of the Monumental Church.

This letter of recommendation was endorsed by Rev. Chas. Miningerode, rector of St. Panl's Church : Rev. H. Dver and Rev. H. E. Montgomery, rector of the Church of Incarnation. Williams is a tall, spare built man, smooth face and sandy hair, and appeared to be terribly distressed at his situation. He was locked up for examination before Justice Hogan, at the toombs Police Court,case will be brought up to-day.

Lawlessness Rampant.

We regret to see the spirit of lawlessness so rife in North-Carolina, as it is at present; right to declare when, and in what manner and though we may lay ourselves liable to the rehearsal of an oft told tale, we will again bring it prominently before our people. This spirit must be put down. Opinions of the Press.

The Louisville Journal says: "The testimonials which Dr. Gardner presents to the public could never have been obtained, except by the display of great skill and learning in his profession. One thing especially commendable in the Doctor's practice is, that he will not attempt an incurable disease for the sake of a fee, but frankly all the street whether he can be curred or not ells the patient whether he can be cured or not We cheerfully recommend Dr. Gardner to the attention of all our friends who may be suffering

The Richmond Times says: "We have no hes-itation in saying that Dr. Gardner is the most scientific and successful eye and car Surgeon in this country." "Dr. Gardner's treatment of the eye and ear is

"We feel justified in recommending Doctor Gardner to those suffering from diseases of the eye and ear."—Richmond Whig.

"We can safely and cordially recommend Dr. Gardner, who will fulfill all he undertakes to perform."—Baltimore Clipper. The New Orleans True Delta says: "We can safely recommend Dr. Gardi

operator on the eye and ear. He will not under take to treat a case unless a cure can be effected.' The Wheeling Register says: "Dr. Gardner is one of most successful Oculists and Aurists in the country. We advise those suffering from the diseases of the eye and ear to consult him."

Reduction in Price of the American Watches.

MADE AT WALTHAM, MASSACHUSETTS. In consequence of the recent great improvements in our facilities for manufacturing we have reduced our prices to as low a point as they can be placed.

WITH GOLD AT PAR,

so that no one need hesitate to buy a watch now from the expectation that it will be cheaper at some future time. The test of ten years and the nanufacture and sale of

More than 200,000 Watches

have given our productions the very highest rank EVANS & COOKE, among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings until they now cover over three acres of ground, and give accommoda

tion to more than eight hundred workmen. We are fully justified in saying that we now make more than one-half of all the watches sol I in the United States. The different grades are distinguished by the following trade-marks on the

1. "American Watch Co." Waltham, Mass. 2. "Appleton, Tracy & Co." Waltham, Mass. 3. "P. S. Bartlett," Waltham, Mass.

4. "William Ellery." 5. OUR LADIES' WATCH, of first quality, is named "Appleton, Tracy & Co.," Wal-

tham, Mass. 6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are turnished in a great variety

of sizes a d styles of cases. The American Watch Co., of Waltham, Mass. authorize us to state that without distinction of

trade-marks or price, AL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this guarantee is good at all times against the Compavy or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may be always exchanged for another. As the American Watches, made at Waltham, Mass., are for sale by dealers generally throughout the country, we do not solicit orders for single watches.

Caution.-The public are cautioned to buy only of respectable dealers. All persons selling ounterfeits will be prosecuted. ROBBINS & APPLETON,

Ag'ts for the American Watch Co., 182 BROADWAY, N. Y. Sept. 22, 1866.

Dr. Tobias' Venetian Horse Liniment. Pint bottles at one dollar, for the cure of Lameness, Scratches, Wind Galls, Sprains, Bruises, Splints, Cuts, Colic, Slipping-stifle, Over-heating, Sore-throat, Nail in the Foot, etc. It is warranted cheaper and better than any other article ever offered to the public. Thousands of animals have been cured of the Colic and Overheating by this Liniment; and hundreds that were crippled and lame have been restored to their former vigor. It is used by all of the first horsemen throughout the States. Orders are constantly received from the racing stables of England for fresh supplies of this invaluable article. Over 2500 testimonials have been received. Remember, one dollar laid out in time may save the life of your horse. Sold by all Druggists .-Office, 56 Cortlandt street, New York. Oct. 22, 1866.
